Toshiko Hasegawa, Executive Director
Commission on Asian Pacific American Affairs (CAPAA)
8Capitol Court Building, Suite 220
1110 Capitol Way South
Olympia, WA 98501

Dear Toshiko and CAPAA Commissioners,

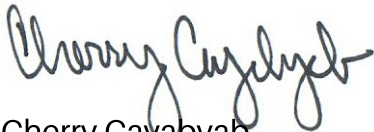

KAYA strategik enthusiastically submits this final report on developing a Census 2020 strategic workplan based on anticipated AAPI undercounts in Clark County.

After local community gathering & work plan development facilitation, please find included the following deliverables:

- 1) Data analysis and maps of AA & NHPI Undercount Risks within Clark County.
- 2) Identified strategies to achieve a full count of AA & NHPI communities
- 3) Identified resources that AA & NHPI communities locally can tap into and receive;
- 4) Get out the Count (GOTC) AAPI field plan co-developed in conjunction with community stakeholders of Clark County.

It was a pleasure to collaborate on this project. KAYA can be reached at 206.227.1948 or cherry@kaystrategik.com should you have any questions.

Sincerely,

Cherry Cayabyab,
Owner & Principal - KAYA strategik

**Clark County Asian Pacific American
Census 2020 Work plan Development Notes**

Time	Business Item	Speaker
3:30 PM	Welcome, Introductions and Purpose	E.D. Hasegawa, CAPAA

Executive Director Toshiko Hasegawa provided welcoming remarks to the group explaining what the Washington State Commission on Asian Pacific American Affairs (CAPAA) was, its efforts towards an accurate count of Asian American and Native Hawaiian and Other Pacific Islander communities in the 2020 Census and the purpose of the session.

All attendees introduced themselves and provided some information on organizations they are involved with and level of familiarity or knowledge on previous census work.

Attendees:

- Toshiko Hasegawa - Washington State Commission on Asian Pacific American Affairs (CAPAA)
- Rosa Mai - Washington State Commission on Asian Pacific American Affairs (CAPAA)
- Ophelia Noble – The Noble Foundation
- Gabriela Ewing – Hispanic Disability Support
- Carmen McKibben – SW WA Communities United for Change
- Khalid Elolaimi - Arabic school of SW WA
- Bernie Gerhardt – Filipino American Association of Vancouver
- Cherry Cayabyab – KAYA Strategik
- Vanesa Gutierrez – KAYA Strategik

3:50 PM	2020 Census Overview and Update	Cherry Cayabyab KAYA

Cherry Cayabyab from KAYA Strategik presented a quick overview of the 2020 Census and its importance. Cherry also shared statistics, maps and data on the demographics of Clark County, highlighting races and ethnicities relevant to the AAPI and NHOPI communities and Hard-To-Count (HTC) areas.

Time	Business Item	Speaker
4:10 PM	Discussion: API communities in Clark County	All
4:25 PM	Discussion: Barriers and Strategies to Local, Culturally Specific API Outreach and Engagement	All

Based on the statistics, maps and data presented by KAYA Strategik, the group started the discussion on where AAPI and NHOPI communities are located in Clark County.

Attendees indicated the maps that were shared did not contextualize the reality of the county and provided insight on the history and dynamics in the area, which have an impact on API communities and barriers and strategies for API outreach and engagement. All attendees agreed the City of Vancouver was not originally designed as other cities. There are some areas that are focal to API communities, but residences are dispersed city/countywide. There are very limited POC led organizations.

The group also had a conversation on communities that do and do not identify as AAPI.

After the conversation, the group discussed barriers and outreach strategies that have worked in the past for each ethnicity and community and that would be effective for census outreach in Clark County. All information shared by the group has been compiled by KAYA in the API GOTC Field Plan Template.

One item mentioned by attendees is that in the last years, more communities of color are being identified and collaborative, culturally specific and relevant work has started to be done with them. Another item with an effect on barriers and outreach strategies is that communities of color in the area feel more connected to Portland than to the rest of WA State.

5:00 PM	Implementation: Roles, Capacity and Resources	All

A commonality between all attendees was the interest in supporting 2020 Census outreach efforts, despite limited capacity and resources attendees offered to do the following to start spreading the word on the census among their groups:

- The Washington State Commission on Asian Pacific American Affairs (CAPAA) staff have all the interest in partnering with all organizations to continue the work. CAPAA Staff offered to collaborate with communications on social media, newsletters etc. and sharing the information with family, friends and other AAPI and NHPI communities.
- Bernie Gerhardt - Filipino American Association of Vancouver. Will report back to community and leaders, will also make the census and data learned today public by sharing materials and videos.
- Khalid Elolaimi - Arabic school of SW WA. After sharing some background on the current climate at a national level, history on multiple communities of color in the City of Portland and highlighting the

importance of schools, churches and other organizations in bringing together communities of color, Khalid indicated the school is willing to join this effort by utilizing media and sharing resources.

- Gabriela Ewing – Hispanic Disability Support. Since work is already being done among multiple communities, she will keep educating and providing support.
- Carmen McKibben – SW WA Communities United for Change. Carmen brought up the need for spaces and offices to do census outreach work. Her group has been vocal locally expressing needs to do the work and hold dialogues. Will be sharing information with her group, reporting back.
- Ophelia Noble – The Noble Foundation. Willing to continue building relationships to collaborate. Since work is already being done among multiple communities, she will keep educating and providing support.

5:15 PM	Next Steps and Closing	CAPAA and KAYA

KAYA committed to follow up with CAPAA within a month to provide a report on the findings, recommended edits/additions and feedback that was shared by the group at the meeting.

UNIQUE BARRIERS TO SPECIFIC COMMUNITIES:

	BARRIERS	STRATEGIES TO ADDRESS THEM
AANHPI:	<ul style="list-style-type: none"> ▪ Language ▪ API Communities do not understand the importance of the census ▪ Distrust in Government. ▪ Fear caused by presence of white supremacy in the area. ▪ Communities of Color feel more connected to Portland, OR than to WA State. ▪ A large focus on Hispanic/Latino outreach instead of utilizing culturally specific outreach strategies with other communities. A mixed approach is needed. ▪ Technological barrier since 2020 Census will be mostly online based. ▪ Due to the high need for resources, families are traveling to other locations/cities constantly to access basic services. 	<ul style="list-style-type: none"> ▪ Accurate translation and interpretation ▪ Addressing WHY the census is important, what is at stake and confidentiality laws and efforts ▪ Disseminating the message often and repetitively to inform communities on the impacts: districting, fund distribution etc. ▪ Next generation needs to be involved. There are 6 high schools in Vancouver, WA: Skyview High School, Vancouver iTech Preparatory, Columbia River, Fort Vancouver, Hudson's Bay and Lewis and Clark. ▪ Churches: Saint John's Catholic Church (over 500 POC) ▪ Businesses: Nail shops and salons along 4th Plan Corridor ▪ Partnering with libraries and other entities and organizations is recommended to address access online ▪ Holding intimate conversations at homes ▪ Ethnic media and social media ▪ Doing outreach at multicultural events and community centers.
