2015 results will set a new baseline of student performance in Washington

- ▶ Think of the standards and the assessment as a new targets with new results.... envision two mountains:

- ▶ People who successfully climb Mt Rainer (at 14,000 ft), will find ~~Mt McKinley~~ Denali (at 20,000 ft) challenging.
- ▶ Some will be able to meet the challenge, some will be close and some who previously were able to summit Rainier will not be able to summit Denali at first.
