6. CAPAA PROJECTS

Census 2020 Full Count Effort

CAPAA adopted three counties where there are high concentrations of AAPI’s in Washington State, with great risk of a population undercount. Census 2020 returns as of March 27th are as follows:
- Nationally - 30%
- Washington State - 32.6 %
- Clark County - 35.6%
- Thurston - 34.4%
- Whitman County - 28.7% - Low numbers make sense because WSU’s campus population makes up a large bit of Whitman County’s population, and there is a scramble with finishing the semester, people being away and coming back due to Spring Break, and COVID-19. There was a note saying that some students should not return, and some students are stranded there, so stress level is high. Outreach via trusted messengers was going to be the key to reaching folks for a completely count effort. Short of that, the strategy may have to be a combination of old-school “phone tree” outreach coupled with an online outreach. Support for Whitman County in light of COVID-19 may look like:
  o A targeted digital campaign – one for students, one for Whitman County AAPI’s.
  o Blast e-mail to business owners as outlined in CAPAA’s Whitman County Strategic Work Plan
  o Phone banking to community members
7. COVID-19

Definitions:

- **Isolation**: Separation of people who are currently sick; highly contagious. Planet-wide strategy is isolation for 14 days.
- **Quarantine**: People who have not currently shown symptoms, but know they are at increased risk for having been exposed. Also asked to stay home for 14 days, even though they feel perfectly well. Prevents potential for transmission to others.
- **Stigma**: Occurs when people associate a risk with a specific people, place, or thing – like a minority population group – and there is no evidence that the risk is greater in that group than in the general population. Stigmatization is especially common in disease outbreaks. (https://emergency.cdc.gov/cerc/cerccorner/article_123016.asp)

The following are a list of APA Community Coordinated Response Efforts taking place in light of COVID-19:

- Weekly regional calls happening with City of Seattle, KC Public Health & State agencies
- Weekly CID-community calls
- Weekly calls with COVID-19 Community Response Alliance
- Monthly APIC statewide coordination meetings.

Upcoming Actions:

- Regular newsletter and Facebook updates with relevant announcements & resources.
- CAPAA APA Stakeholder Statewide Conference Call in the works for the week of 3/30 in conjunction with APIC-Washington.
- CAPAA Committees at work on various advocacy efforts (Education, Economic Development, Health & Human Services, Census 2020)
  - Letter from Education Committee to OSPI asking for updates and inclusion in decision-making
  - Anti-hate campaign by Civil Rights & Immigration Committee
  - CAPAA statement proposed by Health & Human Services Committee about closing the gap in services and opportunities for immigrants, refugees, limited permanent residents, undocumented folks, and people with a social security number

Timeline of Developments (this is a non-exhaustive list of CAPAA activities COVID-19 milestones):

2/3 – E.D. Hasegawa co-produced blog post with Secretary of Health John Wiesman, *It Takes All of us to Reduce Stigma During Disease Outbreaks*

2/12 – CAPAA provided feedback to Governor Inslee’s Office and Department of Health feedback regarding reports of discrimination against AAPI students. CAPAA recommended the Governor explicitly voice a narrative against discrimination and prejudice. CAPAA also recommend OSPI communicate with schools to ensure implementation efforts of DOH’s recommendations do not violate people’s civil and constitutional rights. DOH subsequently co-hosted a webinar in conjunction with OSPI for all school administrators and nurses to participate in on 2/25.

2/14 – CAPAA staff begin participating in weekly partnership calls with DOH and Public Health.
2/25 – Per CAPAA’s recommendation, DOH & OSPI co-hosted a webinar for all school administrators and nurses, attended by approximately 250 people.

2/25 – City of Seattle announces 30 - 60% decline in CID restaurant revenues in light of COVID-19. CAPAA continually receives updates from CID-based partners and the City of Seattle Office of Economic Development regarding reports of the economic impact upon AAPI businesses & opportunities serving them. CAPAA also made two inquiries to OMWBE, Employment Security Division, as well as DOC about support opportunities for businesses and workers in need. CAPAA continually works on language access to documents offered in English by various departments.

2/26 – CAPAA participates in multi-agency coordination meeting. Recommends:
  - Translating materials into Tagalog and Marshallese (received)
  - Making anti-stigma resources available in multiple languages (in progress)
  - Coupling all COVID-19 updates with anti-stigma messaging (in progress)

2/26 – “Lunch in the CID” media event attended by CAPAA staff featuring Mayor Jenny Durkan at Honeycourt Restaurant to encourage support of CID businesses.

2/29 – Governor Inslee issues COVID-19 Emergency Proclamation

3/3 – King County establishes impromptu COVID-19 quarantine site in White Center, WA. CAPAA staff contacted with complaints that community was not consulted with. CAPAA staff attended public meetings at White Center CDA to hear community concerns about quarantine center location & decision-making processes.

3/4 – 600 teachers in Seattle Public Schools call in sick, a 33% (statistically significant) spike above the average sick day “call-out” rate. School districts also experience a severe substitute teacher shortage.

3/5 – VP Pence visits Washington State to discuss support services & providing test kits for Washington State.

3/6 – CAPAA attends 2 hour public health training conference call: Seattle, King County & Washington State declared state of emergency. P.E. and music teachers asked to cover other classes. DOH publishes guidance documents for local jurisdiction and tribal nation preparedness partners.

3/7 – CDC backup forces arrive to assist with testing and control measures. Washington State’s response will become the template for the rest of the nation.

3/10 – Governor Inslee issues E.O. to protect elders in long-term care facilities, including screening of staff for symptoms, limiting visitors to adults only, monitoring all residents and social distancing within facilities.

3/10 – CAPAA connected Public Health with Thai, Khmer & Marshallese interpreters. Made the inquiry about other languages, and were informed of budget deficit and staffing shortages to do so.

3/11 – Governor Inslee issues E.O. prohibiting all events of (x > 250); Urged school districts to create contingency plans for school closures. KC Executive Dow Constantine issued E.O. prohibiting smaller events unless steps are taken to minimize risk (1. older and vulnerable individuals are encouraged not to attend; employees are screened each day for symptoms; social distancing recommendations are met; environmental cleaning guidelines are followed.)
3/12 – Governor Inslee orders public school closures for King, Pierce and Snohomish Counties.

3/13 – Governor Inslee announced the statewide closure of all schools, to begin at 12:01am on March 17, 2020, until 12:00pm on April 24, 2020, unless extended beyond that date. During closures, students and families in need will have access to meals at school. Additionally, child care will be provided for free to any family where the parent of primary caretaker is a health care practitioner. He also issued a proclamation related to 2-year colleges, 4-year colleges, private career colleges, and apprenticeship training programs to begin at 12:01am on March 17, 2020, until 12:00pm on April 24, 2020, unless extended beyond that date. This proclamation prohibits all in-person classroom instruction, except for labs/clinics. However, the following can continue:

- Labs and clinics if social distancing (6-feet) is imposed AND a person is designated to implement/ensure implementation.
- Core functions, including dorms, food service, research and medical clinics.

School closures have been intensely debated between public health experts around the country. Crux of the debate is whether to close schools vs. to keep them open. (Italy kept them open; China & Korea kept them open.) Things to consider: 1) School closures are a tool in the pandemic influenza toolbox because students significantly to the transmission of viruses in the community. Governor will meet with Superintendents around Puget Sound area.

3/15 – Governor Inslee orders statewide shutdown of restaurants, bars and expanded social gathering limits. The shutdown includes restaurants, food courts, bars and taverns, wine, beer and spirits tasting venues, doughnut shots and ice cream parlors, coffee shops, sit down airport restaurants and bars, theaters, bowling alleys, gyms and fitness centers, non-tribal card rooms, museums, art galleries, tattoo parlors, barbers, hair salons & nail salons.

Pandemic impacts the state of the health care system: rapid influx of patients makes capacity to provide care tight in the Puget sound area. Health care system is leaning forward and discussing strategies to deal with medical surges, and whether to create COVID-19 units, how to cohort patients, postponing elective surgeries, and other issues. Have been receiving shipments of Personal Protective Equipment (PPE). Currently, the demand exceeds supply, so priority will go to facilities with known COVID-19 cases.

3/18 – Governor Inslee issues a statewide moratorium on evictions for 30 days. Under this proclamation, landlords may still seek an eviction if they attest it is necessary for the health and safety of the tenant or others. Law enforcement may not enforce eviction orders based solely on non-payment of rent. He also waived the one-week waiting period for unemployment insurance applications. DSHS will expand the eligibility of the family emergency assistance program (to now include families without children)

3/22 – Governor Inslee issues a statewide “stay home, stay healthy” order. It is not called “shelter in place” because that is technically inaccurate. People may leave their homes for essential purposes.

3/25 – Governor Inslee issues a proclamation temporarily waiving certain requirements of the OPMA so CAPAA and others may host public forums online.

3/27 – U.S. House of Representatives approves the U.S. Senate’s stimulus package. Questions remain regarding the accessibility of resources on state a national level to immigrants, refugees, Legal Permanent Residents, undocumented folks, and those without a social security number.
